

Main Gate.

The main entrance to the depot has a motorised gate that requires a code for you to enter and exit the yard. Under no circumstances must the gate sensors be blocked to allow the gate to remain open.

The gate is there for security purposes and to keep you and your colleagues safe. If it is late at night and you are the only one in the depot please ensure that the gate closes after you.

The Gate code is: **1839**

Please keep this code safe and do not give out to anyone you do not know or anyone that does not work for the company.

If you have any issues with the gate please let a member of the office staff know.

Regards

James Heath
