

MERCEDES USER MANUAL (LJ20 LLJ)

Getting in- Large fob has keyless entry standing near the front door and waiting a few seconds then pushing and holding black round button on door to open and close the door.

Power- There is no power switch on this coach.

Heat/Aircon- the heater /aircon control panel is located to the left of the steering wheel, dial **5** controls temp for drivers and for passengers you need to push **2** in order to access passenger control. Using **10** will adjust fan direction by pushing it in and twisting to control airflow a picture will appear on screen showing desired selection. **3** will turn on the webasto. On this coach there is an ability to set the webasto on a timer I believe the timer has already been set to warm the coach up early morning it's in the menu settings however please only do this if you are sure of how this works.

Microphones- two fitted one is near the front door ensure both radios are on and you will find a mic button on the radio once pushed mic is switched on should work, second mic is on driver seat.

Toilet- open locker near the middle door here you will find a lever turn this lever to drop the toilet and use the hose connectors to top up flush water and sink water levels.

Wheelchair access- there is a video on our website where you can find how to use the lift and remove the seats to allow space for a wheelchair

Spare Belts- in the engine bay lower right corner cable tied to pole.

Batteries- front nearside ski locker with main kill switch

Oil/ water/coolant – oil water and coolant are in the main locker as well as winter kit.

Fuses- Rear offside ski locker

Spare bulbs-

Triangle-
